Wirefree Chimes and Pushes

Wired Chimes and Pushes

Kits, Bells and Buzzers

Today's Established Leader

Friedland is synonymous with innovation and excellence. With a prestigious history of design, manufacture and supply of high quality wirefree and wired doorbells and pushes, Friedland has established itself as a world leader.

A 60 year commitment to quality

Our reputation for product excellence, choice, reliability and customer service stems from the continuous review of improved methods, including new product development and design innovation. We constantly seek to provide solutions to our customers' individual requirements. Our total quality management system ensures that high standards are maintained in every aspect of the business, from customer support and service through to manufacture and distribution. This commitment to being 'best in class' has been recognised with the highly valued ISO9001 quality approval.

The perfect choice for every home

The breadth of our range in Door Chimes, Pushes, Transformers, Bells and Buzzers offer innovation and individualism to every home. From the convenience of wirefree chimes to the comprehensive range of traditional wired chimes, there is a Friedland chime to suit every style and taste – from traditional to modern.

Innovation for the customer

With the Evo+, Décor and Libra+ ranges of Chimes, Friedland continues to build on a long history of technical expertise and innovation. These ranges offer easy installation and high quality solutions for a variety of customer needs.

Libra+ Wirefree Chimes

Libra+ continues to be the consumer's choice for both style and functionality. The range features functions such as alert identification icons, volume control and Friedland's secure 868MHz frequency.

Features and Benefits:

- Wirefree portable, wall mounted and plug in options
- Operating range up to 200m*
- Frequency of 868MHz FM which is a less crowded frequency, thus reducing interference
- Pre-programmed push to chime kits, for ease of installation
- Unique learning code for push to avoid interference with neighbours' chimes
- Analogue (rotary) volume control
- Chime icons visually identify source of chime activation – a number of options are available including front door push and back door push
- CD quality sound
- 2 year guarantee

* Max range between push and chime. Note: Building structures, e.g. metal and thick walls may affect transmission range.

Libra+ Wirefree Chimes
